

1988 ANNUAL INDEX

A

Adams, Carol	
—Using computers in reclamation, July	66
Aggregate	
—Aggregate: Producers Apprehensive About 1989, Dec.	39
—Automated plant fed by dredge, Sept.	50
—Clamshell boosts dredging output, Nov.	63
—Progress report: Crushers today, July	72
—Reclamation: Rock to riches, Sept.	58
—Special report: Clarifiers, Aug.	56
—Special report: Conveyors, May	45
—Special report: Dewatering units, June	51
—Special report: Haul Trucks, Sept.	67
—Special report: Screen units, Oct.	71
—Using computers in reclamation, July	66
—What's new in ripping?, Nov.	60
—Who owns whom: crushed stone, Nov.	51
—Who owns whom: sand and gravel, Nov.	55
Alesi, Shane	
—How to boost clinker output, Oct.	55
Automated plant yields variety, April	90
Automated plant fed by dredge, Sept.	50
Automation	
—Nuts & bolts of plant automation, Dec.	60

B

Basalt linings solve cyclone wear problems, July	54
Bauer, Anthony	
—Using computers in reclamation, July	66
Blasting	
—Blasting misfire can be costly, Jan.	61
—New idea boosts fragmentation, Dec.	66
—New pre-splitting idea may save money, Oct.	60
—Priming methods can reduce costs, March	65
—Quarry face analysis offers better blasting, July	59
—Timing controls blasting effect, June	62
Blasting misfire can be costly, Jan.	61
Bogard, Robert C. Jr., Rock Products Register, Nov.	45
Bosse, Earl F. Jr.	
—Update on waste as kiln fuel, April	43
—Waste as a kiln fuel - part II, May	60
Buyer's guide, Feb.	63
Buyer's guide index, Feb.	64
Buyer's guide product listing, Feb.	67

C

Cement	
—Building of a cement plant, June	66
—Cement: Falloff in consumption ahead, Dec.	48
—Cement industry must change, Feb.	57
—Cement industry salary report, May	35
—How I rank U.S. cement plants, Oct.	39
—How to boost clinker output, Oct.	55
—International cement review, April	63
—New flame shape improves results, April	39
—Target: America...Subject: Cement, March	69
—Test results in on roll grinding, April	51
—Update on waste as kiln fuel, April	43
—Using kilns for incineration, July	80
—Waste as a kiln fuel - Part II, May	59
—Waste burning: An inside look, July	63
—Who owns whom in U.S. cement, Oct.	43
Special report: Clarifiers, Aug.	56
CON/AGG offered look at future, April	94
Compact plant crawls to work, Sept.	48
Construction expected to dip by 4% in 1989, Dec.	37
A guide to consultants, June	37
Conveyors	
—Conveyor line uses floating idlers, July	59
—Keep conveyor idlers out of bone yard, Aug.	35
—Monitor scans conveyor belt wear, July	57

—Special report: Conveyors, May	45
—Transfer chute cuts abrasive wear, July	60
—Vertical conveyor achieves 350 tph, July	54
Cooley Gravel Co.	
—Automated plant fed by dredge, Sept.	50
Corona Industrial Sand Co.	
—Automated plant yields variety, April	90
Crushed Stone	
—Blasting misfire can be costly, Jan.	61
—Compact plant crawls to work, Sept.	48
—Crushed stone salary report, May	31
—El Paso pierces Lubbock market, Jan.	63
—Ideas abound at Whitley quarry, Sept.	43
—Inventiveness key to Fogle success, Aug.	49
—New idea boosts fragmentation, Dec.	66
—Nuts & bolts of plant automation, Dec.	60
—Presplitting blasting idea saves money, Oct.	60
—Progress report: Crushers today, July	72
—Quarry remade into golf course, Aug.	44
—Quarry turns to cogeneration, Sept.	75
—Sand plant spurs Pennsuco output, Feb.	52
—Syr swears by slurry separator, Oct.	81
—Timing controls blasting effects, June	62
—Top 20 crushed stone plants, Aug.	38
—Tough fabric for haul roads, Aug.	67
—Used equipment aids silica plant, Jan.	65
—Versatile feeder improves riprap, Aug.	63
—What's new in ripping?, Nov.	60
—Who owns whom: Crushed stone, Nov.	51
Top 20 crushed stone plants, Aug.	38
Culbertson, Kurt	
—Using computers in reclamation, July	66

D

Dewatering	
—Mobile dewatering rigs keep kaolin mines open, Dec.	35
—Special report: Dewatering units, June	51
Drag scraper boosts productivity, July	56
Dredge redesign improves production, July	51
Drill can pierce granite at rate of 5 fpm, July	55

E

Editorial comment	
—A miner's poem, Aug.	13
—Beazer versus Koppers, June	13
—Buyouts in the aggregate industry, March	15
—Cutting Goliath down to size, Jan.	17
—Hits and misses—the year in review, Dec.	13
—Re-thinking our image, Nov.	15
—Shipping in the stone, July	15
—Spreading our wings, April	13
—The family-owned business, Oct.	9
—The future of offshore mining, Sept.	11
—The FTC and the cement industry...again, Jan.	17
—The off-shore mining conference, May	13
—What we believe, Feb.	15
—Which comes first: profits or market share?, Jan.	17
El Paso Sand Products Inc.	
—El Paso pierces Lubbock market, Jan.	63

F

Florida Crushed Stone	
—The building of a cement plant, June	66
Fogle Company	
—Inventiveness key to Fogle success, Aug.	49
Forecast	
—Aggregate: Producers Apprehensive About 1989, Dec.	39
—Cement: Falloff in consumption ahead, Dec.	48

—Construction expected to dip by 4% in 1989, Dec.	37
—Gypsum: A flat market in 1989, Dec.	57
—Lightweight Aggregate: Slight downturn expected, Dec.	57
—Lime will continue to climb in 1989, Dec.	57
Foster, Frank M., Jr.	
—Picking software for maintenance, March	53
Tough fabric for haul roads, Aug.	67
Versatile feeder improves riprap, Aug.	63

G

Gypsum: A flat market in 1989, Dec.	57
-------------------------------------	----

H

Hansen, Eric R.	
—New flame shape improves results, April	39
Here's a list of products to be shown at CON/AGG, Jan.	48
Hints & Helps	
—Abrasive water aids jet drill's cutting ability, April	35
—Articulated haulers relieve producer's mud crisis, Oct.	35
—Blasthole dewatering rig cuts quarry explosives costs, July	47
—Check conveyor belts' resistance to chemicals and other agents, March	41
—Keeping conveyor idlers out of the bone yard, Aug.	35
—Keeping hydraulic systems in peak operating condition, Sept.	36
—Maintaining kiln tire stop blocks and support pads, June	34
—Mobile dewatering rigs keep kaolin mines open, Dec.	35
—Paddle wheel relieves segregation problem, Oct.	35
—Plastic sheet bedding prevents water loss, April	35
—Producer maximizes excavator's utility, May	21
—Recycled lube oil can extend diesel truck fuel, April	35
—Stability tester detects hazardous rock conditions, Jan.	41
—Winter maintenance for off-road equipment, Nov.	33

How I rank U.S. cement plants, Oct.	39
How to boost clinker output, Oct.	55
How to find/keep good employees, Oct.	85
How to maintain belt drives, March	50
Huhta, Richard S.	
—Ideas abound at Whitley quarry, Sept.	43
—International cement review, April	63
—Target: America...Subject: Cement, March	69

I

Ideas/Trends	
—Automated cement bag line reduces labor costs, Aug.	16
—Conveyor belt repair system claims to cut downtime, Oct.	15
—Dome system may be alternative for bulk material storage, June	15
—Equipment performance monitoring offers instant data, Jan.	23
—Front dumping 170-ton truck is safe and productive, July	21
—New idea combines truck and long-haul rail delivery, Dec.	16
—Single chip microprocessor enhances diesel engine performance, April	15

—Unusual excavator has steel wheels and no power, Nov.	16
Industry news	
—Aggregate barge traffic slows as drought conditions worsen, Aug.	21
—America's public works are "barely adequate," May	15
—Colorado tests new quarry mediation plan, July	27
—CRH agrees to purchase Spanish Concrete Co., Jan.	25
—Kentucky says quarry goes out: Highway comes in, Sept.	15
—Map depicts aggregate resources in North Carolina, Oct.	19
—Newfoundland quarry under construction, Sept.	15
—Off-shore mining meeting set for June, April	17
—PCA sees weaker construction, cement markets in '88, Feb.	17
—1987 U.S. non-metallic mining figures are strong, March	25
—State leaders in aggregate production announced, June	21
International cement review, April	63
Inventiveness key to Fogle success, Aug.	49

J, K

Kamas, James W.	
—Update on waste as kiln fuel, April	43
—Waste as a kiln fuel - Part II, May	40
—Kaser, Peter, Rock Products Register, Nov.	60
Katz, Karen	
—A Guide to consultants, June	37
—Cement industry must change, Feb.	57
—What to see and do in Houston, Jan.	46
Kerstetter, Michael, Rock Products Register, Nov.	44
Konya, Calvin J.	
—Blasting misfire can be costly, Jan.	61
—Priming methods can reduce costs, March	65
—Timing controls blasting effects, June	62

L

Lightweight Aggregate: Slight downturn expected, Dec.	57
Lime will continue to climb in 1989, Dec.	57
Lukovic, S.S.	
—Blasting misfire can be costly, Jan.	61
—Priming methods can reduce costs, March	65

M

Maintenance	
—How to maintain belt drives, March	50
—Maintenance problem solvers, March	57
—Picking software for maintenance, March	53
—Pick right alloy for hardfacing, March	55
—Update on belt cleaners, March	45
Maintenance problem solvers, March	57
Make a positive image with ads, Oct.	64
Michard, Don	
—Nuts & bolts of plant automation, Dec.	60
—Off-shore mining problems aired, Sept.	78
—Progress report: crushers today, July	72
—Special report: classifiers, Aug.	56
—Special report: haul trucks, Sept.	67
—Using kilns for incineration, July	80
—What's new in ripping?, Nov.	66
Mirras, Dave, Rock Products Register, Nov.	41
Morse Bros. Inc.	
—Clamshell boosts dredging output, Nov.	63
Murphy, Dewey, Rock Products Register, Nov.	46

N

National Stone Association	
—New idea boosts fragmentation, Dec.	66
—Nuts & bolts of plant automation, Dec.	60
New pre-splitting idea may save money, Oct.	60
New flame shape improves results, April	39
New plant ideas	
—Basalt solves wear problems, July	54
—Conveyor line uses floating idlers, July	58
—Drag scraper boosts productivity, July	56
—Drill can pierce granite at 5 fpm, July	55
—Grooved linings extend mill life, July	60
—Monitor scans conveyor belt wear, July	57
—Nebraskan redesigns dredge, July	51
—Quarry analysis aids blasting, July	59
—Screen solves crusher clogging, July	57
—Transfer chute cuts abrasive wear, July	60
—Vertical conveyor achieves 350 tph, July	54

Off-shore mining problems aired, Sept.	78
--	----

O

P

Picking software for maintenance, March	53
Pick right alloy for hardfacing, March	55
Priming methods can reduce costs, March	65
Progress report: Crushers today, July	72

Q

Quarry remade into golf course, Aug.	44
Quarry turns to co-generation, Sept.	75

R

Reclamation: Rock to riches, Sept.	58
Robertson, Joseph L.	
—Automated plant fed by dredge, Sept.	50
Rock Products Register, 1988	
—Bogard, Robert C., Nov.	45
—Kaser, Peter, Nov.	40
—Kerstetter, Michael, Nov.	44
—Mirras, David, Nov.	41
—Murphy, Dewey, Nov.	46
—Piermatteo, Joe, Nov.	43
—Riviera, Kenneth L., Nov.	39
—Schrupp, Howard, Nov.	38
—Tepordel, Valentin, Nov.	42
Roy, Robert	
—How I rank U.S. cement plants, Oct.	39
Rowley, Steve	
—The building of a cement plant, June	66
Rudolph, Lee	
—How to find/keep good employees, Oct.	85
Rukavina, Mitchell	
—Automated plant yields variety, April	90
—El Paso pierces Lubbock market, Jan.	63
—Inventiveness key to Fogle success, Aug.	49
—New idea boosts fragmentation, Dec.	66
—Quarry remade into golf course, Aug.	44
—Quarry turns to cogeneration, Sept.	75
—Sand plant spurs Pennsuco output, Feb.	52
—Special report: Dewatering units, June	51
—Special report: Screening units, Oct.	71
—Syr swears by slurry separator, Oct.	81
—Top 20 crushed stone plants, Aug.	38
—Top ten sand and gravel plants, April	56
—Used equipment aids silica plant, Jan.	65
—Versatile feeder improves riprap, Aug.	63

S

Sand and Gravel	
—Automated plant fed by dredge, Sept.	50
—Automated plant yields variety, April	90
—Here are the top '86 sand plants, June	57
—Top ten sand and gravel plants, April	56
—Syr swears by slurry separator, Oct.	81
Sand and gravel salary report, May	26
Sand plant spurs Pennsuco output, Feb.	52
Schneider, Gunter	
—Test results in on roll grinding, April	51
Schultz, Larry	
—Pick right alloy for hardfacing, March	55
Shepherd, James	
—How to maintain belt drives, March	50
Suttil, Keith R.	
—Compact plant crawls to work, Sept.	48
Special report: Clarifiers, Aug.	56
Special report on conveyors, May	45
Special report: Dewatering units, June	51
Special report: Haul trucks, Sept.	67
Special report: Screening units, Oct.	71
Syr swears by slurry separator, Oct.	81
Who owns whom: Sand and gravel, Nov.	55

T

Target: America...Subject: Cement, March	69
Tarmac Florida Inc.	
—Sand plant spurs Pennsuco output, Feb.	52
Tepordel, Valentin	
—Here are the top '86 sand plants, June	57
Test results in on roll grinding, April	51
The building of a cement plant, June	66
Timing controls blasting effects, June	62
Transportation	
—New idea combines truck and long-haul rail delivery, Dec.	16
Top ten sand and gravel plants, April	56
Tough fabric for haul roads, Aug.	67
Top 20 crushed stone plants, Aug.	38

U

Update on belt cleaners, March	45
Update on waste as kiln fuel, April	43
Used equipment aids silica plant, Jan.	65
Using computers in reclamation, July	66
Using kilns for incineration, July	80

V, W

Vulcan Materials Co.	
—Versatile feeder improves riprap, Aug.	63
Walter, Edward J.	
—Timing controls blasting effects, June	62
Wassenaar, Monique	
—Reclamation: Rock to riches, Sept.	58
—Map depicts aggregate resources in North Carolina, Oct.	19
Waste burning: An inside look, July	63
Waste as kiln fuel - Part II, May	60
Welcome to 1988 CON/AGG Show, Jan.	45
West, Jim	
—Make a positive image with ads, Oct.	64
What people earn, May	25
What to see and do in Houston, Jan.	46
What's new in ripping?, Nov.	60
Who owns whom in crushed stone, Nov.	51
